SELECTIONS

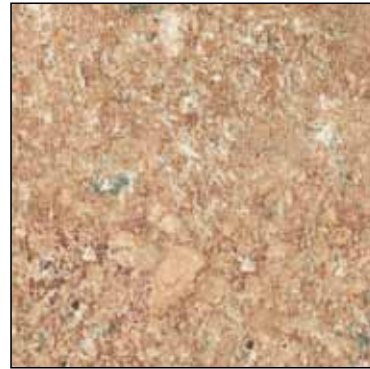

Long-lasting Wilsonart® Laminates offer impeccable function and timeless beauty. Today's laminate choices come in more contemporary colors, styles and patterns, looking more realistic than ever before.

Laminate is an ideal countertop option for the healthcare environment. Not only is laminate easy to clean and maintain, but, since it is a nonporous material, it will not support the growth of bacteria and mold. Laminate countertops are also an affordable solution to your countertop needs, costing substantially less than solid surface, quartz and other engineered stone.

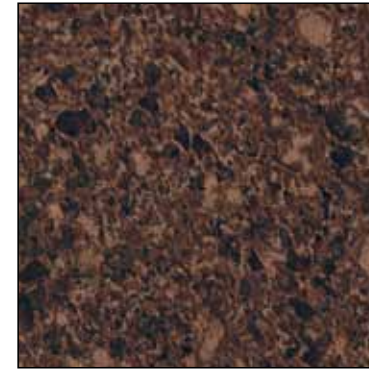

Midmark offers Wilsonart® Laminate in 15 beautiful, standard colors with many more colors available by special order. A drop-in sink with chrome faucet and soap dispenser is standard on sink cabinets with laminate countertops.

To assist in your selection of Midmark countertops, upholstery and casework panels, please access our Dental Color Selector at midmark.com. For additional information on Wilsonart® Laminate, visit wilsonart.com.

The color swatches shown are the best representation of the original material. Actual color may vary slightly.
